STARTCARE SERVICE, SAFETY & OPERATIONAL CHECK PACKAGE

Our standard service is about physically doing certain things to maintain your car like replacing the engine oil and oil filter, and also running operational and safety checks to see that key components are in good condition. If we find anything unusual or an item which needs further attention, we will discuss this with you first before any work is undertaken.

WHAT WE DO:		W	WHAT WE CHECK:	
1	Visually inspect front Brakes	15	Engine starting performance	
2	Visually inspect rear Brakes	16	Steering operation	
3	Reset all Tyre pressures including spare Tyre	17	Brake travel	
4	Reset Tyre Pressure Monitoring System	18	All Windows are operating correctly	
5	Measure & record the tyre tread depths	19	All Gauges, Washers & Wipers
