

i20 Series II

100% Kiwi owned

The Hyundai brand has grown rapidly into a global automotive powerhouse. But first and foremost, we are a local business. Hyundai New Zealand is 100% Kiwi owned and all our Hyundai dealers are 100% NZ operated. This means we are a New Zealand company helping New Zealanders grow.

Welcome to the i20 Series II

The i20 Series II is fresh from an exciting redesign at our European Design Centre in Germany.

The i20 Series II is packed with Hyundai's best features, such as automatic headlights, parking sensors, reversing camera, touch screen multimedia, keyless entry, Bluetooth handsfree and more.

But it's the i20's compact characteristics that make it a real winner. It's perfect for driving around town and so easy to park. A 1.4 litre petrol engine with a clever automatic transmission offers responsive performance, as well as fuel efficiency.

Best of all, with a sizeable luggage space of 301 litres and 60:40 rear folding seats - there's a surprising amount of room.

Introduce yourself to the i20 Series II by taking it for a test drive today. You won't be disappointed!

i20 in Sleek Silver shown

Exterior

The eye-catching i20 Series II - with its sleek and modern design - has been inspired by the great small cars of Europe. Flowing lines and curved, moulded bumpers epitomise Hyundai's fluidic design philosophy, giving the i20 a purposeful presence as well as great aerodynamics.

Stylish design touches including a hexagonal grille, high mounted LED stop light and front daytime running lights add to a sporty look. Finishing off this impressive exterior are body-coloured electric side mirrors and matching door handles.

So wherever you go in the stylish i20 Series II - you'll be turning heads.

Designed and Built in Europe:
The i20 Series II is European through and through. Created at the Hyundai Design Studio in Russelsheim Germany, the latest Fluidic Sculpture 2.0 design philosophy exudes class. In addition, the i20 is manufactured at Hyundai's state of the art factory in Izmit Turkey, to precise standards.

Alloy Wheels:
Stylish and durable alloy wheels ensure that your i20 will never go unnoticed. Modern 15" alloy wheels come fitted with high quality tyres ensuring maximum style and safety. The i20 also features a temporary spare wheel and tyre for added reassurance.

Aerodynamic Design:
The refined appearance of the i20 Series II is emphasised by its long hood, low roofline and sharp crease line. Combined this achieves a more streamlined vehicle lowering the car's aerodynamic drag figure to 0.30 Cd.

i20 in Sleek Silver shown

i20 in Sleek Silver shown on left
i20 in Champion Blue shown on right

Interior

One of the most clever things about the i20 Series II is its spacious interior.

Once inside, you forget that you're driving a compact vehicle. Generous legroom in the front and back combined with an ergonomically designed dashboard, create a real sense of luxury and space. This feeling of comfort - which

you'd expect from a larger vehicle - is enhanced by a stylish interior with strong European influences, including soft-touch interior trims and fabrics.

Equipped with air conditioning, USB with iPod input and an audio system with 4 speakers - the i20 Series II comes with all the interior technology you need for a comfortable journey.

High Grade Materials:

Developed to discerning European standards, the i20's high quality interior features extensive use of high-grade Thermoplastic Olefin material, to ensure soft-to-the-touch surfaces and increased durability. The use of silver trim also elevates the ambience of the interior.

Ergonomically Excellent:

The i20's cabin has been designed with ergonomics in mind. This includes a dashboard tilted 5 degrees towards the driver to improve practicality and ease of use, whilst still looking asymmetrical to the passengers. Important controls are close to hand whilst rear visibility is excellent thanks to intuitive design.

Interior Space:

The i20 Series II may be compact, but in terms of space, it's comparable to cars of a size class above. Passengers can stretch out with class-leading legroom of 1,892mm and there's plenty of room for carrying their gear too with a generous 301 litre boot.

Fingertip Controls:

The i20's multi-functional steering wheel puts everything you need at your fingertips. You can operate cruise control, manage your music, answer phone calls and listen to your favourite songs all without taking your hands off the wheel.

60:40 Split Foldable Rear Seats:

Whether you need to transport passengers and their belongings, or you have some gardening supplies to pick up, 60:40 split foldable rear seats make it easy to configure the seating and boot space to carry as much as possible.

Safety

Your safety is something we never compromise, which is why the all-new i20 is equipped with a range of the latest technologies to keep you and your passengers as safe as possible. The i20 definitely punches above its weight when it comes to being tough. Reinforced steel, front and rear crumple-zones and doors with side-impact intrusion bars are the foundation of the i20's strength.

Six Airbags:

The i20 comes with a full complement of six airbags, with advanced dual front, side and full length curtain airbags providing all-round protection to you and your passengers.

Vehicle Stability Management (VSM) with Electronic Stability Control (ESC):

Designed to help on wet and slippery roads, Vehicle Stability Management works in conjunction with Electronic Stability Control to give the i20 more stability, so you can drive with added confidence on tricky surfaces.

Rear Park Assist:

The i20 thinks of everything. To help with parking in tight spots, ultrasonic sensors located at the rear give an audible warning if objects are detected.

Overseas model shown

Advanced dual front, side and full length curtain airbags.

Child Seat Anchor Points:

The i20 is designed to keep Kiwi children as safe as possible with ISOFIX child seat anchor points on the second row outside seats. The i20 also features a deactivation switch for the front passenger airbag if a child seat is required to be used on the front passenger seat.

Advanced High Strength Steel (AHSS):

Hyundai's capability to make their own high strength steel alloy is a real benefit, one you won't notice until you need it. Advanced high strength steel makes up 42% of the body structure, which has increased torsional rigidity by an impressive 81% compared to the outgoing model.

Hill-Start Assist Control (HAC):

Hill-start Assist Control does exactly what it says on the tin, preventing backward roll on steep hills and providing a smooth transition as the vehicle pulls away.

i20 in Sleek Silver shown

Technology

The i20 Series II is equipped with a range of technology to make driving easier and more enjoyable. A Bluetooth handsfree system and 2 x USB inputs will keep you safely connected and entertained. Automatic features, such as dusk-sensing lights are there to help you concentrate on the road ahead too. Everything else is at your fingertips, thanks to the i20's steering wheel mounted controls.

Cruise Control with Speed Limiter:
Cruise control is ideal for open road driving, allowing you to relax your right foot while maintaining a constant speed. In addition to cruise control, there is also a speed limiter function to help you maintain a consistent safe speed.

Air Conditioning:
An advanced air conditioning system is fitted as standard on the i20. With a range of different modes and rear facing air vents located under the front seats the i20 Series II air-conditioning system will keep all occupants comfortable at all times.

Apple CarPlay™ or Android Auto®
Connect your mobile device using Apple CarPlay™ or Android Auto®, and via the touch screen on the dashboard, you can safely enjoy many of your mobile's features, including using Siri, calling, texting and listening to your music.

Automatic dusk-sensing headlights:
The i20's light-sensitive exterior sensors recognise lowering light levels and automatically turn the headlights on when you need them. They also switch themselves off when ambient light levels increase.

i20 in Champion Blue shown

Performance

Whether you're driving around town, or hitting New Zealand's open roads, the i20 Series II features an automatic 1.4 litre petrol engine that packs a punch. Continuously Variable Valve Timing (CVVT) and multi-point fuel injection delivers an exciting 74 kW of power at 6,000 rpm and 134 Nm of torque at 3,500 rpm. Drive carefree knowing that the engine produces ultra low emissions and is fuel efficient too.

1.4 Litre 'Kappa' engine

1.4 Litre Petrol Engine:

Developed from the world's most advanced design, this petrol engine offers robust performance and fuel efficiency. Whether you're accelerating rapidly or cruising long distances, the i20 optimises every drop of fuel.

Automatic Transmission with Sportshift:

The i20's dependable automatic transmission offers sequential sport shift which allows you to enjoy manual style gear shifting without a clutch. The transmission also features a shift interlock function for added safety.

Euro VI Emissions:

The i20 Hatch meets stringent Euro VI emissions standards. This means you can enjoy the road while keeping your conscience clear.

Tyre Pressure Monitoring System (TPMS)

Automatic Transmission with Sportshift

Tyre Pressure Monitoring System (TPMS):

TPMS works by having a sensor in each tyre which detects pressure variations. So if a tyre pressure becomes too low, a warning light shows on the dashboard giving you the chance to safely stop before the tyre fails.

Finer features

Electric heated mirrors

Perfect for those frosty winter mornings, electrically adjustable heated mirrors are an essential feature both for convenience as well as improving rear visibility when it's cold.

Automatic dusk-sensing headlights

The i20's light-sensitive exterior sensors recognise lowering light levels and automatically turn the headlights on when you need them. They also switch themselves off when ambient light levels increase.

Reversing camera

To make reversing easier and safer, a reversing camera is standard on the i20. Conveniently located in the multimedia unit, the display also offers reversing guidelines for added accuracy.

Daytime Running Lights (DRL's)

The i20 Series II features Daytime Running Lights (DRL's), both for added safety and eye-catching design. These make up part of the i20's eye catching distinctive design.

Remote keyless entry

For added convenience, the i20 Series II features remote keyless entry. Simply press the button on the flip key and you will have immediate access to your vehicle.

Multifunction Steering Wheel:

The steering wheel mounted controls let you manage your music, Bluetooth phone calls, and cruise control without taking your hands off the wheel. Skip to your favourite song, mute or adjust the cruise control, answer and end calls - all while remaining in total control of your i20.

Accessories

All weather mats

Using durable and easy to clean rubber your all weather mats ensure that you can keep the inside of your i20 immaculate.

Bumper Protector

This moulded plastic panel protects the rear bumper from scratches and dirt when unloading and loading.

Cargo liner tray

Protect the luggage area from wear and tear when loading and unloading luggage from the boot. The high lip around the edge of the cargo liner also helps contain spills.

Style visors

A transparent set of two style visors can be individually fitted to the front doors of the i20. This enables the window to remain open in all weather conditions.

Custom mat set

Durable and custom New Zealand made carpet mats protects your interior from wear and tear whilst looking stylish and modern.

Custom towbar

For those who wish to tow a trailer or equip a bike rack, a robust compact towbar can be custom-fitted to your i20.

Hyundai's commitment to you

Our promise

We understand your decision to purchase one of our vehicles is not being made lightly and we thank you for putting Hyundai on your list. We know that by the time you decide which vehicle you want to purchase, you'll have had a good look at what's on offer in the market, and carefully weighed up the pros and cons of each. We hope you make the right decision for yourself. If you do decide to choose Hyundai, that won't be the end, it'll just be the start. Our goal is to live up to the confidence you've shown in us, by giving you the best customer service experience in New Zealand.

We call this the Hyundai Ownership Experience – which is a slightly corporate way of saying “we promise to look after you”.

The Hyundai Ownership Experience will actually start before you even have the keys in your hand, as your Hyundai dealer takes you through the things you need to know to get the most out of your new vehicle.

Personal handover

When you come in to pick up your new Hyundai, your dealer will take you through it from bumper to bumper. They'll show you where everything is and how everything works. They'll make sure you're across all those little things most people forget to ask about, like:

- » How to set up your mobile phone to work with Bluetooth
- » Where the tool kit is
- » How to connect and use your Apple CarPlay™ or Android Auto®.
- » Where to find the first aid kit
- » How to register, setup and connect to Auto Link

They'll also check there's either a full tank of fuel or it's fully charged, that the vehicle is spotless inside and out, and that any accessories you specified are fitted just so.

This is also our opportunity to introduce you to the service team, who'll be looking after you in the years to come.

“THE DEALER EXPLAINED THE TUCSON TO ME AND WAS PATIENT WHEN WE HAD QUESTIONS.”

— GARY COCKRAM HYUNDAI CUSTOMER FROM CHRISTCHURCH

Meet the rest of the family

There's a good reason why your dealer will introduce you to the rest of the family. They're the people entrusted to be hands-on through your Hyundai Ownership Experience – the team who'll look after you and your vehicle when you come in for scheduled servicing.

There's no charge for the first service, and it happens after the first month on the road. Then it happens every 10,000 / 15,000 km*.

It's always good to be able to put a face to a name. And knowing them means you can call personally to discuss any concerns. Our people are experts at what they do and keen to show you how good they are. It's a pride thing and we encourage it.

A superb warranty and Roadside Assistance

Every new Hyundai is protected by our 3 year / 100,000 km factory warranty. In a nutshell, if there's any manufacturing issues, we'll fix them. But there's more.

Hyundai Roadside Assistance is included as part of our new vehicle warranty. It means if you should have an accident, puncture a tyre or run out of fuel anywhere in New Zealand, we'll send someone to get you up and running again – 24 hours a day, 365 days a year.

Extending your warranty beyond the factory period can make your ownership experience better yet. It's certainly worth considering. Our extended warranties can later be on-sold with the vehicle, something sure to increase its eventual resale value.

Servicing from trained Hyundai experts

Regular scheduled servicing within our network has real benefits.

Our specialist technicians use Hyundai diagnostic equipment to spot things that may be missed by the untrained eye.

We use genuine Hyundai parts, of course. These parts are built and tested to be specifically correct for your vehicle and are covered by a 1 year / 20,000 km warranty.

Your safety and the safety of your passengers are our number one priority. We can't vouch for the safety or performance of non-Hyundai parts. They only have to be slightly off or incorrectly installed and the integrity of your vehicle will be compromised.

If the cost of servicing is a concern for you, committing to a pre-paid service contract from day one will cost you less in the long run. You can sign up for these to cover your servicing needs for every service interval, which is every 10,000 / 15,000 km* or yearly (whichever happens first). You can do this for as many years as you want, and they're available for any Hyundai, no matter how old.

*Servicing for petrol turbo models is every 10,000 km or 12 months (whichever occurs first)

Insurance

Our insurance offering is part of Hyundai's commitment to improving your ownership experience.

Hyundai Insurance offers several exclusive benefits not available with other motor vehicle policies. For example, if your Hyundai is still in factory warranty, was purchased from a Hyundai dealer in New Zealand and is damaged beyond repair, we'll replace it with a brand new one*.

There's no excess if your glass is broken (up to \$2,000 cost), and we'll cover (up to \$1,500 cost) for the trailer you were towing if that's damaged*.

You can be sure only guaranteed, genuine Hyundai parts will be used in repairs**, and that only approved repairers will be working on your vehicle.

We also offer a Hyundai Insurance specific 24 hour assistance number: 0800 123 266.

*See your Hyundai dealer for full terms and conditions.
**Applies to new vehicles for five years.

Hyundai Fleet

If you're looking for the right vehicles for your business, Hyundai has the perfect fleet solution for you.

Whatever your business size or requirements, you can get the job done by choosing from Hyundai Fleet's diverse range of 14 models and 3 trucks, all of which offer the latest in technology, efficiency, safety and style. And as a Fleet customer, you have the flexibility of a range of ownership and leasing options, as well tax benefits and great value servicing.

So, from the city loving Accent to the cargo carrying iLoad, our fleet services can provide the right vehicles to help drive your business forward. For more information visit www.hyundai.co.nz/fleet

In the company of Kiwis

The Hyundai brand has grown rapidly into a global auto industry powerhouse. But first and foremost, Hyundai New Zealand is a New Zealand company.

Hyundai New Zealand is 100% kiwi owned and all our Hyundai dealers are 100% NZ operated. That's something we're pretty proud of.

This structure gives you the best of both worlds. The benefits of global resources and the huge investment in Research & Development that Hyundai makes, combined with our local commitment and understanding.

We're also very aware of what it means to be a New Zealand company. Our commitment to being a good Kiwi citizen starts with our treatment of customers and extends out into their communities.

We've actively supported the National Agricultural Fieldays for over a decade. We sponsor Hyundai Country Calendar, put money into NZ sailing, and are major sponsors of the Spirit of

Adventure Trust. We're also extremely proud of our New Zealand sponsorship of Kiwi rally driver, Hayden Paddon.

Our sponsorships allow us to offer customers the chance to join us as VIP guests at many of our events, including on board the Spirit of New Zealand and at Fieldays. Look out for these invites from time to time.

The Hyundai Experience will continue to grow and expand. We really want to give you the most rewarding experience you've ever had with a company.

Hyundai Country Calendar visits Doug Avery and his mates on his North Island farm for a yarn.

The Pinnacle Programme

The Pinnacle Programme is a unique scholarship, backed by Hyundai New Zealand, which provides talented young New Zealanders between the ages of 15 and 18 with the foundations for future success. The Programme is open to young kiwis with talent in all areas of endeavours, including, but not limited to, art, sport, science and business.

WWW.PINNACLEPROGRAMME.CO.NZ

Future New Zealand leaders as part of the Pinnacle Programme spend 21 days on New Zealand's iconic Outward Bound programme in Anakiwa, at the top of the South Island.

Hyundai Ambassador Team

Speaking of 0800 numbers, if you dial 0800 HYUNDAI (498 632), you'll be talking directly to one of our Hyundai Ambassador Team members in New Zealand. We operate a local call centre. Our team are trained to support you with any concerns, and they'll be able to help you out with anything you need them to.

We respond to every request, no matter how big or small, as quickly as we can. That's the New Zealand way of doing things, and it's our way too.

If it's an emergency you'll be put straight through to our Roadside Assistance team, who are trained to deal with any situation and will get someone out to you as quickly as possible if that is what is required.

i20 Series II Specifications

Car type	1.4 Hatch Automatic
Engine:	1.4 litre 16 valve twin overhead cam electronic fuel injection engine with CVVT (Continuously Variable Valve Timing)
Fuel system	Gasoline Multi Point Injection (MPI)
Displacement (CC)	1,396
Maximum power (kW/rpm)	74 kW / 6,000 rpm
Maximum torque (Nm/rpm)	134 Nm / 3,500 rpm
