

2021

stinger

MORE MUSCULAR, MORE LUXURIOUS

From concept car to reality, the Stinger is a true gran turismo for the modern era. A car for spirited long-distance driving, the Stinger combines high power with handling grace, stunning design with a luxurious and spacious cabin, and on-road comfort with innovative technologies.

MORE THRILL IN EVERY DRIVE

"We've made a lot of great cars and I'm proud of all of them, but the Stinger is something special."

A handwritten signature in black ink, reading 'P. Schreyer'.

Peter Schreyer
President & Chief Design Officer

INTELLIGENT DEVELOPMENTS

The high-performance Stinger brings a range of upgrades for 2021 to amplify its gran turismo character.

Smarter and Safer

The new Stinger features a redesigned tail trim and exhaust outlets, a new 10.25" touchscreen infotainment system and the addition of Kia's Advanced Driver Assist Systems (ADAS), including Lane Follow Assist, Forward Collision Avoidance Assist with Junction View, Safe Exit Warning and Blind Spot Collision Avoidance Assist.

Rear Lighting Signature

2021 sees the addition of a full width rear lighting signature for an unmistakable presence at night.

2021 UPGRADES

Electronic Variable Exhaust Valve

The most powerful engine in the Stinger line-up, a twin-turbo 3.3-litre T-GDi V6 from Kia's 'Lambda' engine family, remains unchanged for 2021, save for a new Electronic Variable Exhaust Valve system*.

This features a small butterfly valve in the exhaust which opens and closes, producing a more prominent, deeper exhaust note in Sport driving modes, or a quieter, more subdued exhaust note in Eco or Comfort mode.

Its 510 Nm of torque is accessible from 1,300 to 4,500 rpm, paired with a smooth-shifting 8-speed automatic transmission, matching the car's long-legged gran turismo personality.

*Electronic Variable Exhaust Valve fitted as standard to all 3.3-litre T-GDi models

POLISHED PRECISION

Nappa Leather Seats

Inspired by the links in a metal wristwatch, the new interior trim design improves seat volume and comfort, while retaining Stinger's high performance credentials.

Mood Lighting

Extending to the upper portion of the dashboard, and now offering a choice of 64 colours, the new mood lighting system further extends your customisation options.

2021 UPGRADES

Remote Engine Start

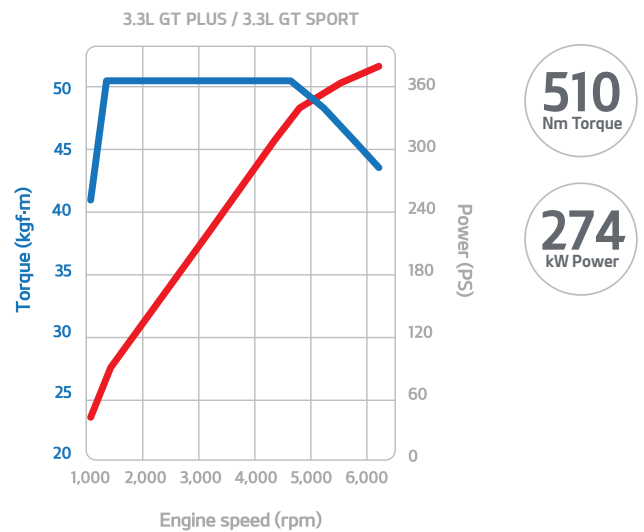

The upgraded Stinger features a series of new 'connected car' features to improve convenience for owners including the Remote Engine Start system, which allows owners to start their car remotely using the Stinger's smart key.

POWER UP YOUR DRIVE

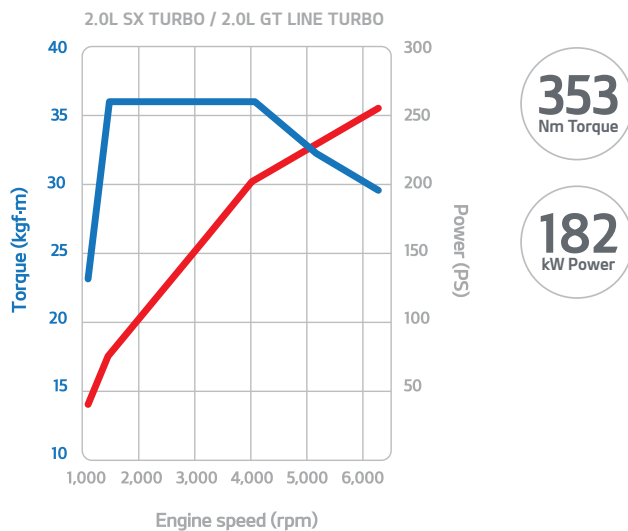

Lambda 3.3 TT-GDi engine

A twin turbocharger helps this V6 engine achieve considerable torque over a broad rpm range. The exhaust manifold is integrated with the cylinder head for added power, and an electronic thermostat helps provide precise temperature control. Now standard on all 2021 Stinger models, a bi-modal electric variable exhaust valve further improves performance, increasing power to 274 kW.

Theta II 2.0 T-GDi engine

A twin-scroll turbocharger boosts low to mid rev efficiency while newly applied technologies provide phenomenal combustion efficiency. The engine produces maximum power output of 182 kW at 6,200 rpm and maximum torque output of 353 Nm from 1,400 to 4,000 rpm.

SOPHISTICATION IS IN THE DETAIL

Dark chrome finished outside mirrors & trim

The dark chrome finish of the trim and wing mirror conveys refined, performance oriented luxury while adding to the stunning look of the Stinger.

19" alloy wheels

Available on the GT Line and GT Sport, assertive 19" alloy wheels speak to the deep gran turismo sentiments of drivers everywhere.

350 mm front disc brakes with Brembo® red brake calipers

On the GT Line and GT Sport, red Brembo® brake calipers provide enhanced braking power.

Full LED headlamps with cornering headlight control

Bold front styling features full LED headlamps, giving Stinger real road presence. Cornering headlight control offers a safer night time driving experience, with the headlamps designed to turn as the steering wheel does, illuminating the path around corners.

Rear LED lamps & quad exhaust pipes

Modern, stylish rear LED taillights illuminate to add to the Stinger's signature look. While four oval exhaust tips announce that the Stinger is ahead.

Smart power tailgate

The hands free smart power tailgate opens automatically within three seconds when you stand close to the rear of the vehicle without having to reach for your key.

THE EPITOME OF GRAND TOURING

10.25 inch colour LCD touchscreen infotainment

Easy to read and operate, the vivid floating 10.25 inch colour LCD touchscreen combines important vehicle information with audio, media and satellite navigation controls.

Frameless rearview mirror

New for 2021, the rearview mirror is now frameless, elevating the Stinger's modern interior and improving rear visibility.

Ventilated & heated front seats

Ventilated front seats provide a 3-stage cooling airflow on hot days, and more effective heating on cold days. Both the seat cushion and the seatback feature airflow perforations for ultimate comfort.

Dual zone climate control

A dual zone temperature control system along with rear seat climate control gives the driver and all passengers separate climate controls, allowing people with different climate needs to ride together in comfort.

Side bolster adjustment

Optional side-bolster adjustment for the 8-way power driver's seat lets you choose a setting that offers maximum support and comfort, by twisting the seat controls on the side of the base of the seat.

4-way Lumbar Support

Air Cell Lumbar Support for the 8-way power driver's seat lets you reposition areas of resistance in the seatback, up-and-down and side-to-side, for ultimate comfort.

Cushion extension

To help relieve fatigue, an optional thigh extension for the driver moves the front edge of the seat base forward, supporting a larger area of the driver's thighs.

Integrated Memory System (IMS)

Customise your drive with the Integrated Memory System, which saves two presets for driver's seating positions, outside rearview mirrors, Head Up Display and cluster display.

Head Up Display (HUD)

A height adjustable Head Up Display projects key driving information discretely onto the windshield in your line of sight so that you can safely focus on the road ahead. Vehicle speed, cruise control, audio and Blind Spot Detection information are included and can be personalised.

Dynamic Stability Damping Control (DSDC)

While aiming to predict the driver's inputs, depending on road conditions and driving style, the Dynamic Stability Damping Control can be tuned to respond with more agility to improve high-speed stability points during vigorous driving.

15 speaker Harman Kardon® premium sound system

The Harman Kardon® sound system includes subwoofers that resonate in hollow parts of the frame and body. Clari-Fi technology enhances digitally compressed music while Active Sound Design augments acceleration, shifting and suspension sounds for an enhanced driving experience.

CONNECTED TO YOUR SURROUNDINGS

Forward Collision Avoidance Assist (FCA)

In addition to vehicle, pedestrian and cyclist detection, the system now also detects other road users on more acute angles, such as at an intersection, helping the driver safely navigate through, and applying the brakes if it detects danger.

Blind Spot View Monitor (BVM)

The innovative Blind Spot View Monitor display enhances the driver's rearward vision by showing you a high resolution live video feed on the dashboard when you indicate a turn or lane change.

7 airbags

To help protect occupants and potentially reduce injuries in the event of a collision, the Stinger offers driver and front passenger airbags, 2 front-side airbags, 2 side-curtain airbags, and a driver's knee airbag as standard.

Safe Exit Assist (SEA)

Safe Exit Assist prevents the rear doors opening if the system detects a hazard approaching from behind the vehicle, such as a cyclist or another vehicle.

Around view monitor with parking guidance

This intuitive system combines 4 wide angle images from cameras at the front, rear and sides of the vehicle to give you a bird's eye view of your surroundings while parking or moving at speeds below 20 km/h.

* Fuel consumption figures shown are from standard Australian Design Rules tests. Actual results achieved will differ according to operating conditions and driving style.

** Not all mobile phones will be compatible with the vehicle's Bluetooth® system.

∞ Apple CarPlay requires an iPhone 5 or later. It is recommended to always update your iPhone to the latest iOS release. Use the Apple Lightning® cable provided with your phone, or an Apple-certified Lightning cable.

† Android Auto requires an Android phone with Android 5.0 Lollipop or higher. It is recommended to always update your phone to the latest OS release. Use the USB cable provided with your phone.

ECO-CONSCIOUS

So you value sustainable living? We do too.

That's why we take pride in rising to meet the expectations and challenges of the 21st century while making tangible contributions to the preservation of the environment and sustainable development of society.

Our environmental research centre spearheads our drive for the production of clean hybrid and fuel-cell vehicles to lead the way to eco-friendly cars for a greener tomorrow for you, your children and all of us.

From design through to recycling, we create innovative products, adhering to state-of-the-art Design for Recycling (DfR) guidelines. Even at the end of your car's life, we aim for eco-friendly return and treatment.

Operating a rigid process, we guarantee environmental protection in the treatment of harmful waste substances. These are then recycled or recovered, ensuring the highest level of environmental protection.

As you can see, what you do on a small scale with your household refuse, we at Kia Motors do on a large scale.

SERVICES

5 YEAR Warranty Programme (OR UP TO 100,000KMS)

All new Kia passenger vehicles come with an impressive 5-year / 100,000 kms (whichever occurs first) Warranty Programme covering against manufacturing or assembly defects. This warranty programme is transferable between owners and emphasises our commitment to our customers.

4 YEARS Scheduled Servicing (OR UP TO 40,000KMS)

All new Stinger vehicles come with 4 years free scheduled servicing or up to 40,000 kms (whichever occurs first). Excludes lease vehicles, rentals, government purchasers and demonstrator units.

5 YEAR Roadside Assist

A Roadside Assistance Programme for the duration of the Warranty Period is also offered on every new Kia at no cost. In the unlikely event that your Kia has broken down, help is only a call away and trained staff will be despatched to your location. If a repair cannot be conducted on the spot, the vehicle will be towed free of charge to the nearest Kia dealer.

INCIDENT CARE

If you and your new Kia were unfortunately involved in an incident or crash that requires body repairs to your Kia, Kia Incident Care is here to help you, and is free for the first five years.
