

# RENAULT TRAFIC

## A strong personality

Renault TRAFIC showcases style and stands out at first glance. The front end panel, front grille with chrome and brand lights (C-Shape) with Full LED lighting combine dynamism and sturdiness. More than just a light commercial vehicle, Renault TRAFIC has distinctive features for your efficiency and safety on New Zealand roads.

## Like an office on wheels

Enter your new workspace. Spacious and comfortable with up to three proper seats, Renault TRAFIC's passenger compartment is designed to allow you to operate in optimal conditions. Comfort features include ergonomic seats t, height and depth adjustable steering wheel, air-conditioning and more. Equipment, such as the smartphone holder and folding central seatback for your computer, and the finishes (dark carbon colour scheme, chrome inserts, new gear lever knob) will all contribute to your well-being. There's no shortage of useful features including 90L of storage space and a large 54L tray under the passenger bench seat meaning you have everything at your fingertips. Renault TRAFIC is your partner for efficiency.

## Adapted to your team and your loads

Whether it's people or merchandise, Renault TRAFIC can take care of every load. With a record loading length of 4.15m (using the clever hatch under the passenger bench seat) and useable volume of up to 8.6m<sup>3</sup>, it can transport all kinds of materials, tools and large or bulky items. The wide sliding side doors and rear doors open up to 255°, making it easier to access the loading space for handling. With Renault TRAFIC, you can combine utility with pleasure!

## Seamless connectivity

Stay connected thanks to the multimedia systems in Renault TRAFIC. Media Nav Evolution can be used for smartphone replication so you can enjoy your favourite applications from the large touchscreen on the dashboard. An even more enjoyable driving experience in complete safety!

**1. Media Nav Evolution: all the multimedia essentials are at your fingertips.** With Android Auto™ and Apple CarPlay™, you can use apps at any time. The built-in touchscreen gives you access to all the TRAFIC's features including navigation with traffic news, hands-free calls, digital radio, music streaming and more.

**2. Further customisation with R-LINK Evolution.\*** Vehicle information, TomTom navigation, telephone, multimedia and applications can be downloaded via the R-LINK Store to enhance your driving comfort. You can also find all your own applications with Android Auto™ smartphone replication.

Android Auto™ is a trademark of Google Inc.  
Apple CarPlay™ is a trademark of Apple Inc.

\* EDC models only equipped with Media Nav Evolution system.

2.

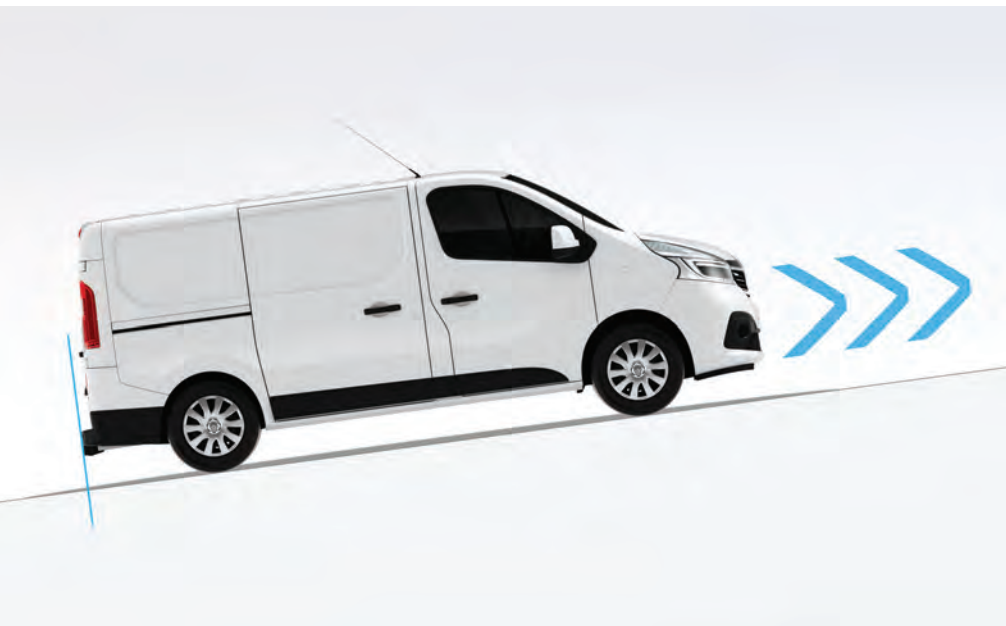

## Drive with peace of mind

To simplify your business trips and make them safer and stress-free, Renault TRAFIC is equipped with practical driving aids to help keep you safe. To make parking easier, use the rear parking sensor system. The rear-view camera is built into the rear-view mirror or the navigation screen. The wide view mirror integrated into the passenger sun visor allows you to view the rear blind spot area for increased safety. Cornering lights combined with fog lights increase visibility on winding roads. Renault TRAFIC takes care of your comfort and safety.

## Drive anywhere in any weather

Whether you're a tradesperson or own a business, TRAFIC will get the job done, no matter the road. To meet occasional demands for enhanced traction and to help you deal with poor driving conditions, Renault has developed new extended grip technology. This technology improves the adaptability of your utility vehicle on difficult roads, such as unpaved or muddy tracks. The onboard computer recovers data from the wheels to optimise the vehicle's performance. When grip is lost, it adapts engine power to each wheel to improve the grip and manoeuvrability of the vehicle.

## More efficient driving

Now equipped with the new dCi diesel engine with variable geometry turbocharger compliant with latest standards, Renault TRAFIC is moving up in the world. Available in several different engine sizes, this 5th generation engine delivers more power and more torque, whilst remaining more environmentally-friendly. This gives you improved driving pleasure and lower real fuel consumption.

	dCi 115 ENERGY	dCi 170 ENERGY
Emission control standard	Euro 5	
TRANSMISSION
