

2022
Kia Sorento

Life is what you make it

At Kia, we believe movement inspires ideas. Great ideas come to you when you're on the move. Whether you're walking, traveling on a train or driving.

It's why we create the spaces and the time you need to bring ideas to life. Very like the experience that awaits you behind the wheel of every Kia. With our design, space innovation, purpose driven technology and built in sustainability, we aim to inspire every time you encounter the Kia brand.

Because you never know where your next big idea awaits. But they are out there. Waiting to be discovered. So, what are you waiting for? Get moving. Get inspired.

Overseas model shown.

Design excellence in every detail

Athletic and dynamic, the Kia Sorento rewrites SUV style. Built on an all-new platform, Sorento immediately grabs you with its elongated, sculpted silhouette and purposeful stance. This latest interpretation of the iconic “Kia Tiger Nose grille” is easily the most incisive and purposeful ever.

Sorento's graceful, flowing lines are in no way compromised by the inclusion of a powerful high voltage battery. The Sorento's new platform was designed from the outset for electrification and accommodates the battery pack under the floor, with minimal impact on cabin or luggage space.

Your Sorento takes charge

Featuring Kia's new and highly advanced Smartstream™ powertrain, the Sorento Hybrid pairs a lively 1.6-litre turbo-charged petrol engine with a 1.5kWh lithium-ion polymer battery pack and high efficiency 44.2kW electric motor. Working together the petrol engine and electric motor produce 169kW of power and 350Nm of torque, making it a vehicle for all seasons and situations.

Commute to work moving seamlessly from petrol to electric, enjoying fantastic fuel savings and reducing carbon emissions. Head for the open road - and the off-road - and Sorento performs with a muscular authority. It all happens so effortlessly; you simply leave it to the Sorento.

Plug in to the best of both worlds

With plug-in charging, you can leave home or a charging station knowing you have up to 57kms* of pure EV driving should you want it. Zero emission commutes, super quiet journeys, a brisk response when you need it - this is EV driving at its best.

When you want to supplement the electric motor, either to recharge it or boost performance, you simply touch the EV/HEV button and re-engage the petrol engine. Sorento Plug-in Hybrid (PHEV) gives you the best of both worlds, with the electric motor and petrol engine working together to produce 195kW of power and 350Nm of torque.

Your PHEV integrated charging port gives you the option to charge at home or at a public charging station.

*Range will differ according to operating conditions and driving style.

Overseas model shown.

Greater strength, heightened safety

For all its elegance and style, Sorento is also a vehicle of real substance. Additional built-in passive strength is further enhanced by some of the most advanced active safety technology available today.

There is an all-new Multi-Collision Brake auto braking system, designed to work with Forward Collision Avoidance Assist. Blind Spot Collision Avoidance, Rear Cross Traffic Collision Avoidance and Lane Keep Assist all combine to reduce the chance of a collision, but in that unlikely event, seven airbags will protect you and your family.

The innovative Blind Spot View Monitor display in your dashboard gauge cluster shows you a live camera view of your rear blind spots. Parking sensors and the rear-view camera are complemented with a 360° around-view monitor, making you aware of unsuspecting pedestrians, young children or pets that may wander near your vehicle. Young family members are further protected by up to five anchorage points for child restraints, speed sensing auto lock and a power child safety lock, as well as Rear Occupant Alert meaning nobody gets left behind.

Not all features are available on all models.

Overseas model shown.

Sorento is ready for your lifestyle

Whether you want to accommodate a big family or lots of weekend adventure gear, Sorento's wider, longer, three-row cabin is more than up to the task.

Welcoming and luxurious, Sorento is also highly functional. Comforts include leather seats, with four of them heated (the two front seats, plus the outer seats in the second row), and the two front seats are ventilated as well. The driver and front passenger have power seats capable of multiple adjustments. Zone Automatic Climate Control keeps the temperature right for passengers, front and back.

Bluetooth® smartphone pairing is available for multiple phones at the same time, along with a wireless smartphone charger hidden in the centre console, and up to eight USB sockets distributed through the vehicle. There are multiple storage cubbies for all those small items we like to have at hand.

The seven seats can be configured in so many ways, with all of them folding at the touch of a button. The class leading cargo space and extra headroom swallow up surf boards, fishing gear, golf clubs and everything else for a great getaway. They're easy to access too with the smart power tailgate.

Overseas model shown.

Technology built for simplicity

The new Sorento incorporates the very latest advances in connectivity and infotainment, enhanced by superior ergonomics and a more intuitive user experience. This is technology that anticipates and responds, that seems to think like you do.

A 10.25" LCD infotainment touchscreen and 12.3" LCD supervision dashboard screen* share the info-metric duties.

On all Sorento Premium models, there are no analogue dials to be seen, everything is digital, and what is displayed can be tailored to your preferences from a multitude of options. Apple CarPlay™ and Android Auto™ are both supported.

An 8.5" wide customisable Head-up Display is also available across the Sorento range.

All Premium models feature the new 12 speaker BOSE™ Premium sound, a true reference-quality audio system.

*Not all features are available on all models.

ECO-CONSCIOUS

SO YOU VALUE SUSTAINABLE LIVING? WE DO TOO.

That's why we take pride in rising to meet the expectations and challenges of the 21st century while making tangible contributions to the preservation of the environment and sustainable development of society.

Our environmental research centre spearheads our drive for the production of clean hybrid and fuel-cell vehicles to lead the way to eco-friendly cars for a greener tomorrow for you, your children and all of us.

From design through to recycling, we create innovative products, adhering to state-of-the-art Design for Recycling (DfR) guidelines. Even at the end of your car's life, we aim for eco-friendly return and treatment.

Operating a rigid process, we guarantee environmental protection in the treatment of harmful waste substances. These are then recycled or recovered, ensuring the highest level of environment protection.

As you can see, what you do on a small scale with your household refuse, we at Kia do on a large scale.

5 YEAR Warranty Programme (OR UP TO 100,000 KMS)

All new Kia passenger vehicles come with an impressive 5-Year/100,000 km (whichever comes first) Warranty Programme covering against manufacturing or assembly defects. This warranty programme is transferable between owners and emphasises our commitment to our customers.

5 YEAR Roadside Assist

A Roadside Assistance Programme for the duration of the Warranty Period is also offered on every new Kia at no cost. In the unlikely event that your Kia has broken down, help is only a call away and trained staff will be despatched to your location. If a repair cannot be conducted on the spot, the vehicle will be towed free of charge to the nearest Kia dealer.

INCIDENT CARE

If you and your new Kia were unfortunately involved in an incident or crash that requires body repairs to your Kia, Kia Incident Care is here to help you, and is free for the first five years.

7 YEAR High Voltage Drive Battery Warranty (OR UP TO 160,000 KMS)

All new Kia vehicles that are powered by a high-voltage drive battery come with a 7-Year/160,000km (whichever comes first) warranty that covers components found in the drive battery case. In the event that your vehicle becomes immobile due to a high voltage battery or system failure, we'll cover the cost of the tow to the nearest authorised Kia dealer.

Visit Kia.co.nz for full details and terms & conditions.

Movement that inspires
